

DEFENDER COLLECTION

SECURE DATA STORAGE FOR DATA SECURITY

Imation's Defender Collection of USB flash drives, external hard drives and EncryptDisc optical media specifically target the needs of organizations that require the highest in data security, including government and Healthcare Information Technology applications. These highly secure data storage devices meet FIPS 140-2 level 1 or 3 validation and feature 256-bit AES hardware or software encryption, multi-factor authentication options, digital identity, physical security and up to a five-year limited warranty. The Defense Department has restored the use of USB flash drives and the Imation Defender Collection FIPS 140-2 Level 3 validated devices meet the new requirements set forth by the DoD.

By addressing critical security and compliance requirements, the Imation Defender Collection helps organizations prevent costly data breaches and ensure that all sensitive data remains safe.

DEFENDER F50 PIVOT FLASH DRIVE

- FIPS 140-2 Level 1
- AES 256-bit software encryption
- One-factor authentication
- Plastic enclosure
- 2GB, 4GB, 8GB, 16GB
- Five-year limited warranty

DEFENDER F100 & F150 FLASH DRIVE

- FIPS 140-2 Level 3
- AES 256-bit hardware encryption
- Two-factor authentication
- Enterprise level management
- Plastic or Metal, water & dust proof enclosure
- Tamper resistant
- 1GB, 2GB, 4GB, 8GB, 16GB, 32GB
- Five-year limited warranty

DEFENDER F200 + BIO FLASH DRIVE

- FIPS 140-2 Level 3
- AES 256-bit hardware encryption
- Three-factor authentication
- Enterprise level management
- Biometric (fingerprint) identification
- Metal, water & dust proof enclosure
- Tamper resistant
- 1GB, 2GB, 4GB, 8GB, 16GB, 32GB
- Five-year limited warranty

DEFENDER H100 EXTERNAL HDD

- FIPS 140-2 Level 3
- AES 256-bit hardware encryption
- Two-factor authentication
- Enterprise level management
- Metal enclosure
- Tamper resistant
- 250GB, 320GB, 500GB
- Five-year limited warranty

DEFENDER H200 + BIO EXTERNAL HDD

- FIPS 140-2 Level 3
- AES 256-bit hardware encryption
- Three-factor authentication
- Enterprise level management
- Biometric (fingerprint) identification
- Metal enclosure
- Tamper resistant
- 250GB, 320GB, 500GB
- Five-year limited warranty

DEFENDER ENCRYPTDISC OPTICAL MEDIA

- FIPS 140-2 Level 1
- AES 256-bit software encryption
- Integrated password recovery option
- Printable CD-R, DVD-R & BD-R
- Two-year limited warranty
